A revolution in tradition

Once the emblem of *La Dolce Vita*, limoncello has increasingly become a symbol of the industrialisation of alcoholic beverages and *Italian Sounding* — products that evoke Italian tradition without necessarily preserving its authenticity.

Limoncello d’Ischia challenges this evolution, returning to the roots of genuine craftsmanship and the purity of exceptional local ingredients. More than a liqueur, it is a statement of identity: a bold return to authenticity, with the ambition of reclaiming its place as the world’s finest limoncello.
