Manufacturer [Ischia Le Terme della Bellezza](#)

Description

100% thermal water without adding propellant and preservative chemicals

DESCRIPTION:

Useful product for correct **daily hygiene of the nose and throat of children and adults**. It has an effect *moisturizing and regenerating* for the nasal flora, it favors the elimination of excess secretions, giving prompt relief to the dryness of the mucous membranes. Useful in cases of colds, sinusitis, respiratory allergies in general also from pollen and for those who work indoors especially in the presence of dust. Ideal for continuing thermal therapy.

HOW TO USE

Gently place the spray dispenser on the nostril keeping the head straight, spray thermal water while inhaling deeply.

Children: 1-2 sprays per nostril 2-3 times a day

Adults: 3-4 sprays per nostril 3 times a day

microbiologically controlled

THERMAL WATER OF THE GURGITELLO SOURCE FROM THE ANCIENT AND RENOWNED BELLIAZZI THERMAL BATHS.
